

Run School Activities with Confidence

Manage Permissions and Payments in One Place

Keep Activities Organized

See permissions and payments in one place so you don't have to track down forms or visit the office for answers.

What School-Day Helps You Do

Instant Permission Status

See who has permission to participate in an activity in real time. No more checking binders or asking the office for updates.

Clear Participation Lists

Know exactly which students are cleared to attend before the bus leaves or the activity begins.

No More Paper Forms

Parents complete permission forms online, so forms aren't lost in backpacks or missing the morning of an event.

Fewer Last-Minute Surprises

Payments and permissions are connected to the activity, helping you avoid confusion on activity day.

Before the Trip

- Parents sign permission forms online and payments are recorded automatically.

Morning of the Trip

- Check participation status instantly — no trips to the office needed.

During the Activity

- You know exactly who is cleared to participate.

After the Activity

- All records remain stored in one place if they're ever needed.

SchoolDay helps teachers run activities with confidence — with less administrative work.
