

Manage School Activities with Confidence

Clear Visibility into Activities and Payments in One Place

Keep School Funds Organized

See activity participation, forms, and payments in one place instead of relying on paper forms, spreadsheets, or separate systems.

What SchoolDay Helps You Do

Clear Activity Oversight

Quickly see which students have submitted forms and payments for school activities.

Consistent Processes Across Classrooms

District-approved forms and activity workflows help ensure the same standards are followed.

Reliable Activity Records

Permissions and payments are stored together so activity details are always easy to retrieve.

Confidence in School Funds

Payments connected to activities make it easier to track school-generated funds.

When Activities Are Created

- Teachers attach forms and payment details to the activity.

As Payments Come In

- Payments are automatically recorded and tracked.

During the Activity

- Teachers can confirm participation without visiting the office.

After the Activity

- Activity records remain stored and accessible if they're ever needed.

SchoolDay helps school leaders oversee activities and school funds — reducing the workload for staff.
