

Simple Online Payments for School Activities

**Collect and Track Payments
in One Place**

Keep Payments Organized

See who has paid and who hasn't in one place, without tracking envelopes of cash or asking the office for updates.

What School-Day Helps You Do

Know Who Has Paid

View payment status in real time so you don't have to track down missing fees before a trip or event.

No More Cash Envelopes

Parents can pay online instead of sending cash or cheques in backpacks.

Payments Linked to Activities

Payments are automatically connected to the correct activity, making tracking simple.

Less Follow-Up with Parents

Parents can see activity details and pay online, reducing reminders and back-and-forth messages.

Before the Activity

- Parents pay online and payments are recorded automatically.

Before the Deadline

- Check payment status quickly without tracking paper or envelopes.

On Activity Day

- Know which students are cleared to participate.

After the Activity

- All payment records remain stored in one place if they're ever needed.

SchoolDay helps teachers run activities
with confidence —
with less administrative work.
